

!! CONSTRUCTION ALERT !!

CENTRAL HEBER WATER & SEWER REPLACEMENT PROJECT

▶ NOTICE: Construction Coming Soon

Construction Plan:

Work will begin as early as June 3, starting from the NW corner of the map and moving SE over the next few months. Construction activity will expand progressively and will require crews to return to your location several times through October 2024. Sewer, water, pressurized irrigation mainlines will be installed, along with service connections into the edge of your property line.

Traffic Plan:

While utility replacement and additions are taking place on your road, travel will be limited to local traffic only. Shoulder parking will not be allowed. The areas highlighted in red below indicate roads that can anticipate impact and occasional closures. During these closures, property access will be maintained with accommodations provided on request. The areas highlighted in green signify alternate routes that will be available to the public.

Since water pipelines will be replaced, be prepared for intermittent disruptions to your service. You will be provided a 24/48-hour notice. (Note: Most service disconnects last 4-8 hours).
