Central Heber Water & Sewer Replacement Project

Questions? 435-406-4910

The city's water and sewer infrastructure has significantly exceeded its service life. Starting Mid-May 2022, Heber City will begin excavation to replace aging water and sewer utility pipes. This work is vital for maintaining a safe and reliable system for residents and businesses. Pressurized irrigation main lines will also be installed during this time.

This work will require the closure of residential streets, in sections, through October. Only local access will be provided. Since water lines will be replaced, be prepared for intermittent disruptions to your water service. You will be provided a 48 hour notice. (Note: Most service disconnects last 4-8 hours)

Please join us for a community open house to discuss the project and anticipated impacts.

Wasatch County Senior Center
465 East 1200 South

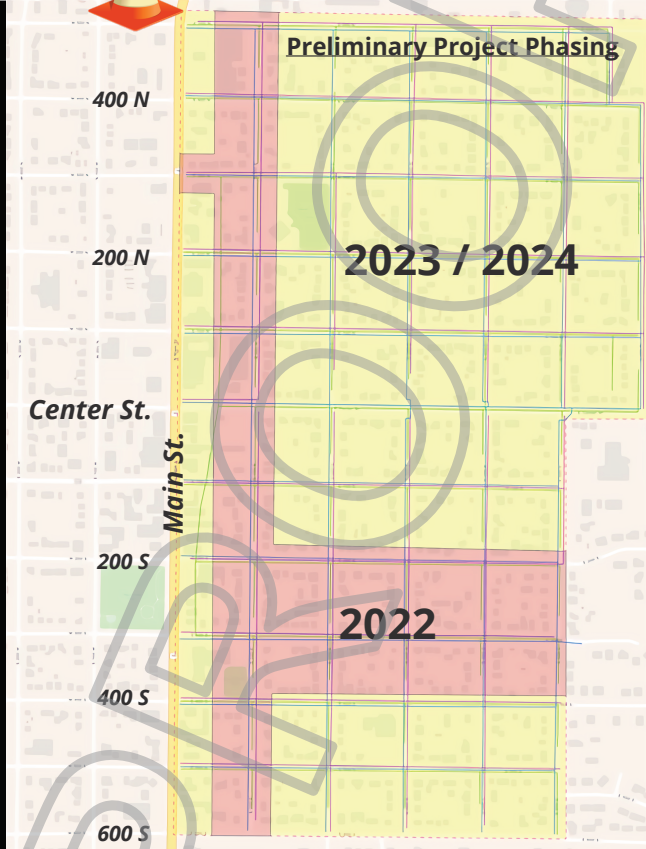

April 14th Times: 6-7pm (or) 7:30-8:30pm

!! CONSTRUCTION ALERT !!

Preliminary Project Phasing

Note: This work does not include utility pipelines from the service connection (water meter or sewer clean out) into your property, which remains property owner responsibility.
